We understand the PDP process can appear daunting at first to clients, So we will be holding PDP clinics as before.

But we also recognise that travelling and attending meetings or events can also be daunting, so we are proposing to hold **Telephone support appointments as well.**

As we are also eligible for farming connect, we have done our own PDP'S. This means that we can access our own PDP'S as we are on the phone, and we see the same screens as you. and so guide you around the screens. We have done this in the previous window, and found it has worked well, and started a positive relationship, making it much easier to contact you after approval to arrange details

**BUSINESS COURSES.**  
 If a group of farmers want to **"SELF ORGANISE"** as long as there is enough , approx. 4-8, we can organise a course for them **in a particular area.**  
 This could suit members of discussion groups, agrisgop-groups etc. If you call us, we can arrange this, and arrange help with your PDP'S as well.

All providers follow different business models, here are some features of ours.

- ◆ We can offer more flexibility in dates and timings when they involve courses that we are instructors for ourselves, which are all the **category 1 business courses, Rodent Control, Mole Control and Tractors. We can also potentially deliver these throughout Wales. SEE SELF ORGANISING SUGGESTION**
- ◆ We only offer pesticides on specific dates usually every 3 months, and all are held here due to equipment needed.
- ◆ We can offer chainsaws here, at Pwllpieran, and at Penllyn.
- ◆ We do not offer shearing, or AI, or IPPC.
- ◆ First Aid is held in the Pontypridd area only.
- ◆ Telehandler- can do anywhere, as long as you have the machine, but need minimum of 2, max of 3. Ideal when you have 2 in the business that need it.
- ◆ Tractors- can be 1 to 1, or 2 on a course. On your farm or ours depending on circumstances, ring to discuss.
