Introduction

Enhance your skills with our dedicated refresher course.

Overview in brief

Felling and processing trees can be dangerous tasks.

That's why it's vital to make sure you have the confidence, knowledge, and skills needed to do it safely.

Our refresher course will keep you up to speed with the latest techniques and safety information.

It's not for novices as it doesn't offer the wide range of skills needed for inexperienced operators to work safely.

The finer details

Our course offers a balanced mix of theory and practical sessions.

The first module covers safety, health, and welfare and is mandatory. It must be completed before the other modules.

We will, however, accept equivalent health and safety certification if it has been completed within five years of this refresher course.

Examples of equivalent certification include:
