

FEATURED COURSE

UNDERSTANDING & USING YOUR ACCOUNTS & FINANCIAL STATEMENTS.

We usually deliver this face-to-face to groups of 4 plus Pan Wales, in a venue **local** to you- usually a pub, hotel or community centre. We will let you know if a light lunch is provided, or you need to bring a packed lunch .It can deliver via ZOOM if needed. Usually 9:30-approx 3PM. It is a good course to do **after** the Bookkeeping course as it builds on the “management accounts” used there. It introduces you to terminology and concepts used by accountants and consultants and gives you an insight into their role- and the ability and confidence to engage and question them in a meaningful way. We look at 3 businesses from different sectors,

and examine and investigate the accounts of a farmer- Old Macdonald.

IT IS REALLY USEFUL IF YOU BRING A SET OF ACCOUNTS WITH YOU- THEY WILL REMAIN COMPLETELY CONFIDENTIAL TO YOU AND IN YOUR POSSESSION AT ALL TIMES, IT IS JUST USEFUL TO SCAN YOURS WHILE WE DISCUSS WHAT THESE FINANCIAL STATEMENTS SHOW.

We look at ways of analysing the accounts for business “health” in much the same way as a consultant would do a financial review. After all, you only need to know how **your** business is doing, this course is not DIY accountancy ! Comprehensive workbook supplied.

THIS COURSE IS ELIGIBLE FOR **80% FUNDING**.

PRICE FOR APPLICATION: £265 YOU WILL PAY £53 + VAT
